

To whom it may concern-

I am an XM radio subscriber and have been for the better part of 3 years. I left commercial radio behind because of its inability to provide variety and quality programming. Media ownership is so broad in the radio industry big corporations have homogenized what was once one of the most exciting forms of communication. Now every station sounds the same, and commercials dominate my time as I flip through the dial.

Next to Tivo...XM radio could be my favorite invention. I gladly pay the monthly bill and look forward to the variety of content and the valuable information.
